About our company...

Ascot Commercial Interiors have been supplying schools and businesses in both Tasmania and Victoria with a wide range of products since 1976. Our business is family managed and owned, and has a singular focus – to satisfy the needs of each of our valued customers – whether large or small.

With a well established client base built upon this focus on service, we have been able to provide extensive warehouse facilities and dedicated and experienced staff, allowing us to offer fast turn-around on an exclusive range of ergonomically designed products unique to the Australian market.

Utilising our advanced CAD software and the knowledge of our experienced interior designers, we can custom design and model your new spaces to suit your specific requirements and provide you with detailed concept drawings and colour and material samples.

Our cabinet making and fit-out service can provide a complete range of custom cabinet options including a wide range of shapes, materials, colours, textures, finishes and hardware for your new office or classroom.

We can also supply a full range of window furnishings and soft furniture products such as ottomans or breakout furniture.

We ask that you take the time to consider not only our extensive product range, but the feedback provided by our existing clients as you prepare your next office or education fit-out project.

The Ascot Vision

To be the provider of first choice for project management and design of commercial office fit-out throughout Australia.

The Ascot Mission

Our mission is to create an atmosphere of excellence and highest morale amongst our clients and their staff, by innovative and advanced office environments.

“ Ascot Commercial Interiors provided exceptional service from the first initial contact through to the final delivery.

Nothing was too much trouble for the Ascot team. Their professionalism and product knowledge was invaluable. I would have no hesitations in using Ascot Commercial Interiors in the future and would highly recommend Ascot to other companies and organisations.

B&E Personal Banking - TAS

“ In all our dealings with you, we have found your knowledge of product second to none. Your staff have always been willing to help us out with any questions we have had, and we have found in your service and recommendations that you have really taken our specific needs and demands into considerations.

Kevin Dunlop & Associates, NSW

think vision

The Ascot Process

- Client consultation and briefing to understand specific client requirements, rather than a broad spectrum approach
- Workplace and furniture appraisals, developed to increase staff morale to the highest levels by creating high class working environments within the area restrictions and staff levels
- Interior space planning and design – to allow maximum flexibility for key requirements, essential ergonomics, maximum workflow, required personal storage and private comfort
- Concept 3D visualisation and finishes to allow full client input. Our methods are open, allowing our clients to have the final say on design and finish. We take the stress out of decision making by representing as closely as possible a rendering of how it will look
- Landlord's submissions if required
- Mechanical, electrical and engineering approvals
- Building permit applications and necessary approvals
- Specification writing and tender documents for client sign off

think benefits

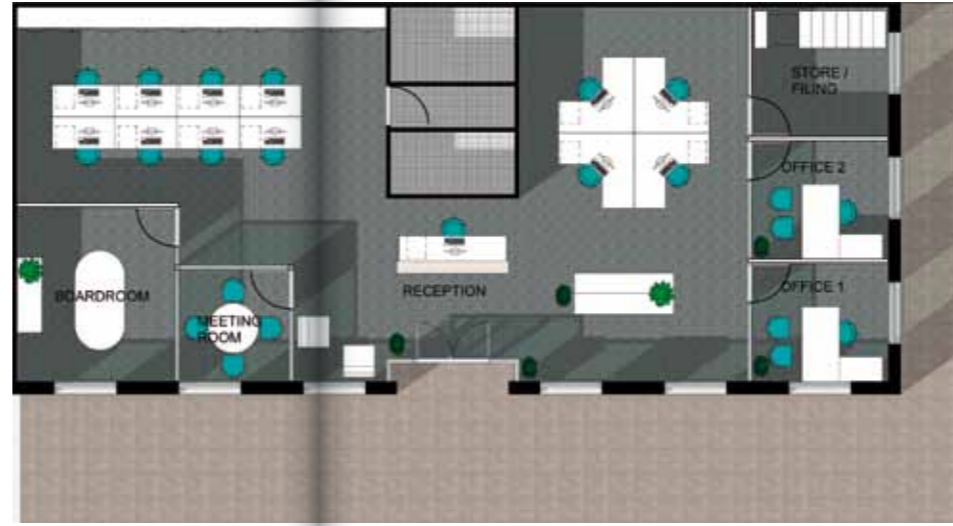

The Ascot Benefits

- A total interior design and fit-out solution
- We leave you free to concentrate on your core business
- No hidden extras – all variations agreed and documented
- Samples provided of specified product for your viewing and approval
- Emphasis on Australian made products for durability and satisfaction
- On time, on budget and we keep our promises
- Personalised service – every client is treated like an only one.
- Products to fit any budget
- Any veneer and finish
- Full AutoCAD design

Normal after sales service is also faultless, staff considering our requests for after-sales support with courtesy and respect. Nothing has been an inconvenience.

From start to finish - the service has been exceptional and I would recommend Ascot Commercial to others.

Uniting Aged Care, VIC

Project Management

Project management is an integral part of the success of the Ascot model, enabling smooth and efficient transition from origin to completion.

Ascot project manage all of our contracts from early concept through to core construction. We organise required permits and approvals where required and co-ordinate all the various trades, removing the risk and pressure from our clients.

As we frequently deal with multi-department organisations, we can utilise our established relationships to the advantage of our clients, smoothly guiding projects through channels of success by ensuring that the most qualified and effective personnel are used.

The advantages to your business of an effective project management system are clear. Development is completed to the contracted design, carried out within the set time frames and fits within the budget.

The Ascot Commercial Interiors project management system ensures each completed project is met with satisfaction by our clients.

Ascot & the Environment

At Ascot Commercial Interiors we care about the environment. We see it as part of our responsibility to help preserve our environment by minimising our footprint.

We take particular care in sourcing products with recycled content and local sustainable materials wherever possible. Many of our products are designed with future use in mind with an aim to produce life cycle analysis of products. We have always sought to encompass beyond any environmental parameter or direction.

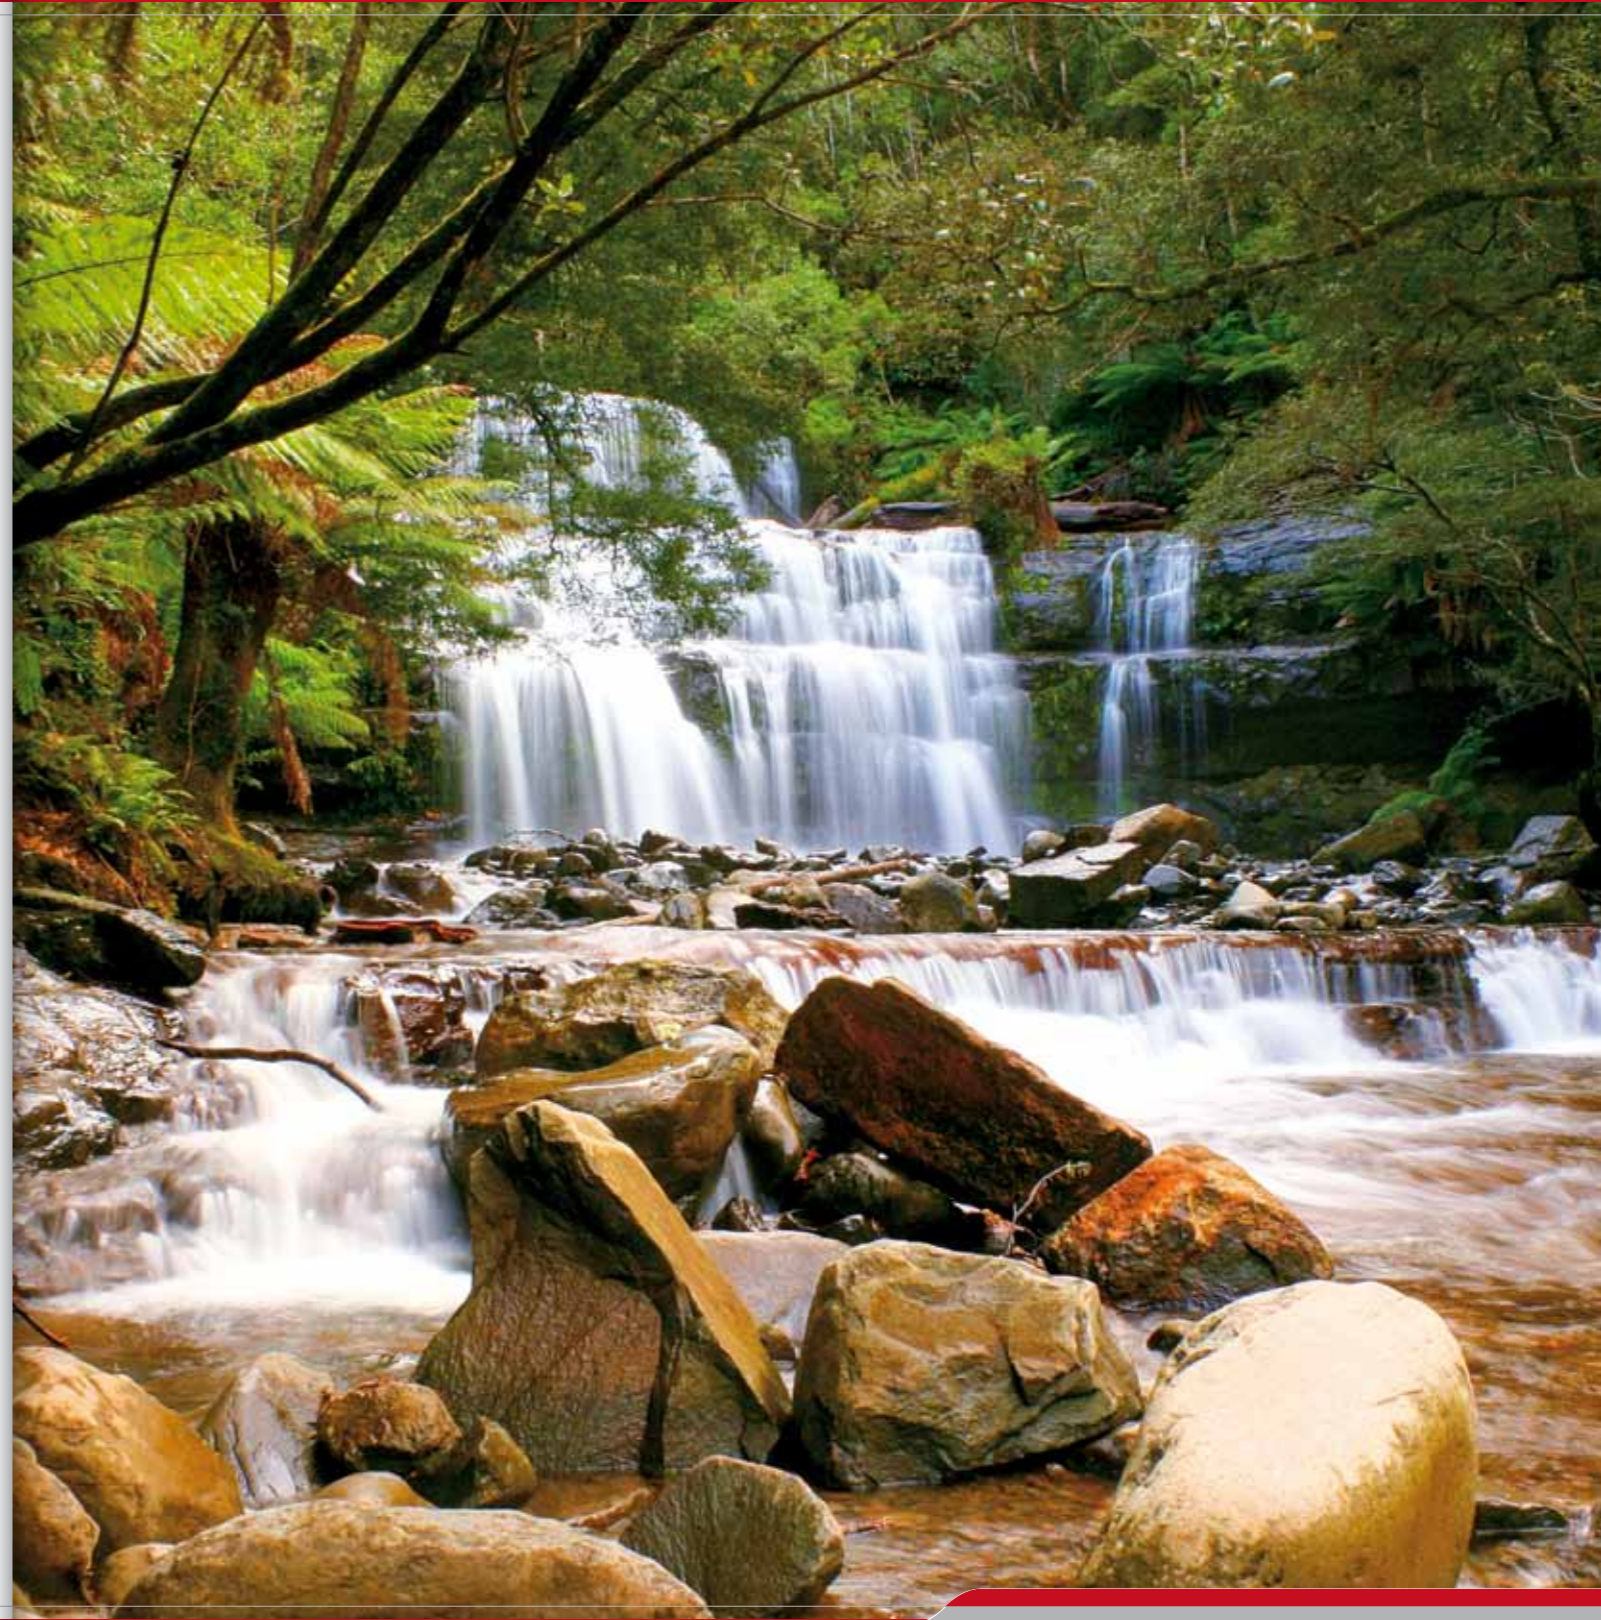

Ascot Commercial Interiors promote environmentally friendly initiatives in office design, and interior aesthetics.

Ask our friendly staff for more information on how we reduce our impact on the environment, and which of our product's feature environmental accreditation.

“ The initial consultation and design survey conducted by Ascot Commercial Interiors was very thorough. In particular, Ascot Commercial Interiors ability to provide samples and truly understand our end user requirements prior to manufacturing proved invaluable in obtaining our desired result within budget.

“We have just had the wonderful opportunity of furnishing our new school. We used Ascot for many products, enjoying the variety of products and finishes to choose from, the quality of the furniture and the playfulness of the types of furniture available for our shared student spaces.

Ours was a large order and the staff from Ascot helped us a great deal in choice and in getting the furniture in place on site. We valued their professionalism and attentiveness to our needs during this time.

Research and Development

The world of business is changing through the progression in technology and growing awareness of health and wellbeing. This has greatly influenced trends in the commercial market and workplace expectations. People no longer view the workplace simply as the venue for earning a living, but rather as an integral part of their life that needs to be as enjoyable and comfortable as possible.

In seeking to meet this demand, Ascot Commercial Interiors are continually looking for innovative new products and creative applications that fulfil both ergonomic and aesthetic requirements. This allows us to create the 'wow!' factor the modern office craves.

The increasing desire to produce environmentally sustainable product has created many interesting challenges, which we have met to the satisfaction of our clients. We are continually looking at renewable and reusable products and materials. We have changed raw materials to provide better and more globally friendly products.

Following fashion in the progressive European markets, we have adapted and developed our products and layouts to suit the Australian market. We have reformed our workstation and screen structures to assist with installation, and allow greater adaptability for business growth and expansion.

In the light of this we have a large range of products to showcase, and look forward to the opportunity to demonstrate the fruit of our research and design.

“ We would like to take this opportunity to express our thanks to yourself and your team for the excellent service you have provided us in the fit-out of our new offices.

From our first initial meeting to discuss our requirements to the completion of our offices, you have given us first class service well and above what was required. Your advice, hands on work and attention to detail was appreciated through the process.

We are very pleased with the end result and look forward to working with you in the future as required.
