COFFEE TABLES

It's the centre ring that ties a space together and brings the focal point to a dedicated area. You want it to be comfortable, welcoming and inviting, all at the same time. It may be a small piece of furniture added to a casual breakout area, or a grand reception space. Coffee tables allow you the space to add your personality through decor and accessories, creating a mood or a place you would be happy to put down your coffee cup.

GARDEN ROOM DIVIDERS

The Planter Room Dividers were designed due to a gap in our offering for those who wanted the benefit of greenery in a workspace without the requirement for storage. Without the storage we are able to design these units in a slim line fashion, they can be used at the ends of workstations or dividing workstations, as well as breakout areas or creating corridors in an open space.

The designer credenza line was intended to be minimalistic and modern with its masterpiece details such as birds-mouth joins, curved doors, soft closing hinges and uplifted bases all that have been carefully designed for the details of the commercial space. They are even more beautiful in real life once they arrive on site. Take our word for it, they are a stand out.

Please note there have been adjustments to the heights in the designer range of credenzas, now all ranging from 800mm - 850mm High. Leg colours will specify the internal carcass and Back colour. Black and White Only.

STORAGE CREDENZAS

A good functional space always requires a sturdy yet good-looking credenza. In a boardroom or meeting room where furniture is at the centre of the room, a credenza adds practicality in storage and also anchors the room as a stunning showpiece.

50mm SCREENS

The Ergo-Panel 50 is an all Australian, extremely versatile modular screen system that is made in-house at our Melbourne manufacturing facility. The screen is fully customizable, giving the client complete control and flexibility over size, style, colour and functionality. Desk mounted or free standing, the screens can be seamlessly integrated into DDK's extensive workstation systems utilising a universal power pole/post. Fully integrated cable management systems are available in any number of positions on the screens with the ability for both soft wired or hard wired options.

Screen Surfaces: Fabric, Pin Board and Sonik Acoustic Panels

SELECTRIC RANGE

The Selectric utilises European design and technology and is constructed with a sturdy steel frame, being powered by motor drives. Maximum height is achieved via telescopic legs. The Selectric operation allows the user to easily adjust the worktop height to their individual preference. The master controller also allows the user to set the minimum and maximum heights as well making it perfect for the home or corporate office alike.

BREAKOUT SEATING

The office breakout area is an integral part of any office space. When designing a space these are a few important items to consider, soft seating with acoustic properties, coffee tables, phone charger station, garden walls and a small fridge for refreshments and don't forget bins and last but not least a coffee station hub. We have designed beautiful stylish products to cover all of these needs.

MINI SPACE

FEATURES

The mini space allows you the freedom of a quiet acoustic booth to steal a moment alone that is a loose piece of furniture

AUDITORIUM SEATING

FEATURES

The auditorium seating is a P.O.A product at this time as your specifications are required to determine the size / Optional heavy duty castors

ALPINE ACOUSTIC SPACES

FEATURES

Each Acoustic Booth can accommodate one Konnect Seat to take a call or have an impromptu meeting with an option of a foldable table. Each booth is priced on application according to your measurements and requirements. Booths can sit face to face.

KONNECT BUILT IN

FEATURES

Konnect Seats can be built in as pictured for a more decorative feel in waiting areas / Also featured is our Belt Line Decorative Wall

LOCKERS

As communal and shared workplaces are becoming the new norm in the working environments and with more open floor plans presenting themselves lockers have never had a more integral part to play. Besides providing storage they can become breakout walls and separate zones where people can gather. Simply transform into a pinnable acoustic wall by simply applying a Sonik Panel on the back and sides or white board for that matter or upgrade to a welded locker garden refer to page. 25

LOCKERS

STANDARD LOCKER DIMENSION
DIMENSION 300W x 500D x 1800H

NEW LOCKER DESIGN FEATURE

LOCKER SPECS - Important Info

- All lockers are priced as 1 Bay, 2 Bay & 3 Bay combos Only
Maximum 3 Bays due to weight restrictions

Our commercial range comes in a variety of colours, thicknesses and sheet sizes specifically designed for commercial application. Our range of colours are available in MELAMINE making it easy for you to choose the design features you are looking for.

The commercial range will inspire unlimited design possibilities for any commercial environment and give your design concept a fresh and unique look.

Our commercial range is committed to an eco-friendly and sustainable environment. It is an intrinsic part of the way we do business daily.

Our decisions are made so that they have minimum negative impact on the environment. Our product is manufactured from managed and renewable plantation pine and is Australian Forestry Standard chain of custody certified. All products are manufactured from E0 or E1.

- L Laminex
- P polytec
- F FORMICA®

* Subject to change, some colours may not apply *

Version 4

- 18mm / 25mm Standard Particleboard
- MDF Board available on request
- Custom Colour & Colour Combinations can be specified (Please refer to our sales representative for more information)

NOTE: Some Formica Colours will be discontinued from Range in 2020, this may impact some of our colour offering
